

NASA eClips™ Engages Students and Parents at STEM Expo

Portsmouth, Virginia
Portsmouth Public Schools STEM Expo
March 9, 2019

Sharon Bowers shows students how to use polarized film.

Sharon Bowers at Portsmouth Public Schools' STEM Expo.

- NASA eClips team members, Sharon Bowers and Joan Harper-Neely, used the **NASA eClips Guide Lite: Testing... 1, 2, 3, Testing – Nondestructive Evaluation** to show how properties of light can be used to learn about clear plastic materials and how NASA uses nondestructive methods to test materials.
- **1,200 students and parents** attended the Portsmouth Public School's STEM Expo.
- The **NASA Spotlight** program was highlighted to encourage participation in the student-production challenge to debunk nationally recognized science misconceptions.
