

Easy STEM Integration with NASA Resources Presentation at The International Technology and Engineering Educators Association (ITEEA)

On Friday, April 13, 2018 in Atlanta, Georgia, Dr. Sharon Bowers and Joan Harper-Neely, STEM Education Specialists from the NASA eClips Team presented two sessions at ITEEA, on integrating NASA resources into lessons targeting the topics of light and sound, force and motion, and the states of matter.

Participants learned how NASA uses light to study and analyze ice layers to determine how it was formed under different weather conditions using NASA eClips™ activities:

- Launchpad: Thin Ice - Looking at Birefringence
- Educator Guide: NASA Launchpad – The Colors of Ice
- Guide Lites: The Colors of Ice
