GLOBE Mission EARTH Partners: NASA Langley RC, University of Toledo, and Tennessee State University disseminated information about GLOBE and NASA Resources at the National Science Teachers Association in Baltimore last week. Presentations and Learning Progressions can be located on the NSTA site under the presenter(s) names or the mission-earth website on GLOBE.

- Exposing Underrepresented Groups to Climate Change and Atmospheric Science Through Service Learning and Community-Based Participatory Research
- Implementing 3-D Learning with NASA/GLOBE Earth System Learning Progressions
- Engaging Elementary Students in a 3-D Science Literacy Learning Experience
- Bring All the Dimensions of Clouds into Your Classroom with NASA’s Atmospheric Learning Progression
