NASA@ My Library/Space Science Institute

March 15, 2018

On February 27, 2018, over 60 *NASA@ My Library Partners* participated in a hands-on Lunar and Meteorite Sample Disk Certification training program in Denver, CO, led by Suzanne Foxworth and Bridget McInturff from the Astromaterials Research and Exploration Science Division at NASA's Johnson Space Center.

This training was a collaboration between SSI's NASA@ My Library program and mindSpark Learning – launched and funded by the Morgridge Family Foundation. This project is part of the STAR Library Network (www.starnetlibraries.org).
