

# NASA eClips™ Introduces the NASA Spotlite Design Challenge at the ITEEA 81<sup>st</sup> Annual Conference

March 27-30, 2019  
ITEEA Annual Conference  
Kansas City, Missouri

- Educators and administrators learned best practices in STEM education and how to incorporate NASA eClips videos and resources into curriculum.
- Middle and high school career and technical education teachers were introduced to the NASA Spotlite Design Challenge and invited to apply to be a part of the 2019-2020 focus group.
- Focus group to provide data to support the statement, “*students who complete the NASA Spotlite Design Challenge increase their science literacy and communication skills.*”

A sample of feedback from Joan Harper-Neely's NASA eClips workshop at ITEEA.

Educators collaborating while learning about the 5E Instructional Model at Joan Harper-Neely's session at ITEEA.
