

NASA Science Activation at 2019 American Camp Association

On February 19-22, 2019, the NASA Science Activation Community resources and activities were disseminated to approximately 300 camp program facilitators.

A booth included handouts about GLOBE, the Sun, Afterschool Universe, PLANETS, International Observe the Moon Night, the Night Sky Network, the Explore program, NASA eClips, and more.

Christine Shupla (LPI), Tina Harte (Langley/ GLOBE), and Carolyn Ng (GSFC/ NSSEC) conducted sessions on *NASA: The Once and Future Moon* on Apollo, current, and future lunar exploration, and *NASA: Looking Up, Do You See What We See?* on the GLOBE Observer program.
