

Girl Scouts Attend Astronomy Camps at The University of Arizona & Goddard SFC

June 18-23, 2017

Girl Scout Astronomy Camp at Goddard Space Flight Center

Eleven Girl Scout teams from 10 states, composed of two girls, a volunteer and an amateur astronomer, attended a six-day long camp engaged in science activities, observing and planning their new Astronomy Clubs

June 30-July 4, 2017 Destination: Astronomy Camp at University of Arizona

Twenty-four Girl Scouts from 16 states attended the adventure in scientific exploration at the Catalina Observatories atop scenic Mt. Lemmon. Girls explored the sky both day and night, creating their own observations and images.
