

NASA Outreach Activities at Geological Society of America

- The Geological Society of America (GSA) kicked off its Annual Meeting on October 25, 2017, in Seattle, WA
- GSA is a global professional society of earth scientists with a growing membership of more than 26,000 individuals in 115 countries
- Mars Program Scientist, Michael Kelley spent the morning meeting with several dozen students interested in geoscience careers at NASA
- Dr. Kelley later served on the GSA GeoCareers mentor panel
