Hands-on Space Science Training for Public Library Staff

- Three workshops reached the following states and individuals:
  - FL on 1/31-2/1/19: 37 participants
  - AZ on 2/4-2/5/19: 38 participants
  - KS on 2/26-2/27/19: 34 participants
- This effort is part of the SMD Science Activation program and the STAR Library Network-Collaborative Summer Library Program partnership.
- Workshop participants said:

  "I loved the Strange New Planet activity. The critical thinking part was a lot of fun and almost video game like."

  "I am leaving with a lot of new things to take back to my library. It was very informative."

  "Great manageable ideas to present science programming at the library."

Keliann LaConte/Brooks Mitchell, Space Science Institute www.starnetlibraries.org; Christine Shupla/Andy Shaner, Lunar and Planetary Institute; Donna Throckmorton Arizona State Library; Dorothy Frank, Florida Division of Library and Information Services, Anna Foote Northeast Kansas Library System
