NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: 18–050]

Planetary Science Advisory Committee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, as amended, the National Aeronautics and Space Administration (NASA) announces a meeting of the Planetary Science Advisory Committee (PAC). This Committee functions in an advisory capacity to the Director, Planetary Science Division, in the NASA Science Mission Directorate. The meeting will be held for the purpose of soliciting, from the planetary science community and other persons, scientific and technical information relevant to program planning.

DATES: Monday, July 2, 2018, 1:00 p.m. to 5:00 p.m., Eastern Time.

ADDRESSES: The meeting will be held telephonically and via WebEx. Any interested person may dial the USA toll free conference call number 1–800–779–9966 or toll number 1–517–645–6359, passcode 3954829, followed by the # sign, to participate in this meeting. The WebEx link is https://nasa.webex.com/; the meeting number is 994 146 371, password is PAC@July2 (case sensitive).

SUPPLEMENTARY INFORMATION: The agenda for the meeting includes the following topics:

—Planetary Science Division Update
—Planetary Science Division Research and Analysis Program Update

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants.

Patricia Rausch,
Advisory Committee Management Officer, National Aeronautics and Space Administration.

NUCLEAR REGULATORY COMMISSION

[Notice: Docket No. 40–8584; NRC–2015–0025]

Kenneecott Uranium Corporation; Sweetwater Uranium Project

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering renewal of Source Material License SUA–1350 issued to Kennecott Uranium Corporation (KUC) for continued operations at the SUP site located in Sweetwater County, Wyoming. As required by part 51 of title 10 of the Code of Federal Regulations (10 CFR), “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions,” the NRC performed an EA. Based on the results of the EA, the NRC has determined not to prepare an environmental impact statement (EIS) for the amendment and is issuing a FONSI.

I. Introduction

The NRC is considering renewal of Source Material License SUA–1350 issued to Kennecott Uranium Corporation (KUC) for continued operations at the SUP site located in Sweetwater County, Wyoming. As required by part 51 of title 10 of the Code of Federal Regulations (10 CFR), “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions,” the NRC performed an EA. Based on the results of the EA, the NRC has determined not to prepare an environmental impact statement (EIS) for the amendment and is issuing a FONSI.

II. Environmental Assessment

Description of the Proposed Action

The proposed action would authorize KUC to operate a conventional uranium mill at the SUP for an additional ten years. The licensee’s application dated July 24, 2014, is available at ADAMS Package Accession No. ML14251A113.

Need for the Proposed Action

The proposed action would allow KUC to recover uranium at the SUP. The licensee would process the recovered uranium into yellowcake on site at the SUP. Yellowcake is a type of uranium concentrate powder obtained from leach solutions in an intermediate step in the processing of uranium ores that is used to produce various products, including fuel for commercially-operated nuclear power reactors.

Environmental Impacts of the Proposed Action

The NRC staff has assessed the potential environmental impacts from operations and decommissioning at the SUP. The NRC staff assessed the impacts of the proposed action on land use; historical and cultural resources; visual and scenic resources; climatology, meteorology and air quality; geology, minerals, and soils; water resources; ecological resources; socioeconomics; noise; traffic and transportation; public and occupational health and safety; and waste management. The NRC staff concluded that the renewal of Source Material License SUA–1350 authorizing KUC to continue operations for ten years at the
